Mobile	Android, IOS, Saucelab, Browserstack

EXPERIENCE

AmericanEagle.com
Quality Assurance Analyst *September 2019 – Present*

- Analyzed technical design documents, system requirements, and business requirements.
- Designed and implemented functional test plans and test cases based on system understanding and analysis of functional and system specifications.
- Actively participated in kick-off meetings, daily stand ups and weekly scrum meetings, provided QA status updates on different user stories.
- Attending sprint planning sessions, user story grooming sessions and retrospective meetings in a rapid and effective agile environment.
- Developed QA processes automation test scripts using Selenium to test web-based user interfaces for different type of browsers. Validated the data from front end to back end tables in Oracle Database using SQL queries.
- Performed end-to-end testing manually
- Developed and executed UAT test cases and scenarios, insuring user requirements were met.
- Worked in various defects and projects as a support for the Front-End teams as well as clients.
- Worked and supported multiple projects for the defect support and coordination.
- Used Quality Center to report and track defects. Ensured that the severity level for the bugs was assigned properly and the highest severity bugs were resolved immediately so interacted with developers to resolve any defects and issues.
- Used Quality Center to perform functional testing.
- Used Quality center to execute automation scripts in batch mode or unattended mode.
- Exported test cases into Jira. Used Jira bug tracking tool to analyze & capture bugs, track and manage dashboard any type of updates for project release.
- Ran automated smoke and regression testing using Selenium scripts.
- Generated weekly status reports on the project and sent them to QA Lead.
- Actively interacted with the Business Analyst and Dev team to identify bugs and retesting the resolved bugs.
- Created reusable automated test scripts using Selenium and other automation tools.
